**Xenia Township is in an Ohio EPA Storm Water Management & Compliance Area
(SM4)**

If your construction project disturbs one (1) acre or more, or is the start of a phase that will, you must also obtain a Storm Water Permit from the Greene County Engineer's Office.

Obtaining a Storm Water Permit

The NPDES Phase II rule requires construction sites disturbing equal to or greater than one acre and less than five acres to control pollutants in stormwater runoff. Construction activity disturbing less than one acre requires a permit if it is part of a larger common plan of development or sale disturbing a total of one acre or greater, or is individually designated for permit coverage by the NPDES permitting authority. This will include SWAPP, Ohio EPA, NOI Permit, Drainage Calculations, EPA Checklist, Maintenance Agreement, Etc.
